PROFESSIONAL SUMMARY

Frontend Developer and Computer Science graduate from Mansoura University with comprehensive experience architecting high-performance, accessible, and responsive web applications using React 19, Next.js (App Router), TypeScript, and Tailwind CSS. Proven track record in delivering scalable component systems, bidirectional Arabic RTL interfaces, and resilient client-side state architectures with automated testing and continuous integration.

TECHNICAL SKILLS

Frameworks & Styling:	React.js (v19), Next.js (App Router), TypeScript, JavaScript (ES6+), Tailwind CSS v4, Bootstrap, HTML5/CSS3
Frontend Architecture:	Component Architecture, Arabic RTL Layouts & Localization, Design Systems, State Management, a11y (WCAG)
Data, Tools & Testing:	REST APIs, GraphQL, Supabase, PostgreSQL, Git/GitHub, Playwright E2E, Vitest, Vercel, Chrome DevTools

FEATURED PROJECTS

Masar — Arabic Government Services Guide | Live Demo — Next.js, React, TypeScript, Tailwind CSS, RTL

- Engineered an Arabic-first RTL platform explaining governmental procedure workflows, checklist requirements, and authoritative sources.
- Constructed an isolated repository abstraction layer handling data fetching, granular loading states, and error boundaries.
- Optimized page metadata, semantic structure, and Core Web Vitals to deliver smooth mobile citizen navigation.

FlowDesk — AI Workflow Productivity Interface | Live Demo — React, Next.js, TypeScript, Tailwind CSS, UI/UX

- Designed and implemented responsive dashboard layouts utilizing modern CSS Grid/Flexbox for cross-device adaptability.
- Created smooth interactive UI states, micro-transitions, and keyboard shortcuts to streamline task pipeline workflows.

AutoCare Express — On-Demand Car Care & Wash Booking Platform — React, Next.js, TypeScript, Tailwind CSS, State Architecture

- Built an interactive multi-step service booking wizard featuring dynamic package pricing, slot allocation, and order tracking.
- Designed mobile-optimized touch navigation and offline-resilient client-side form state management.

Budgetly — Smart Home Budget Management System (Graduation Project) — Frontend & ML Architecture, Python, User Flows

- Architected frontend data flows and integrated smart dietary recommendations based on household income and food preferences.
- Engineered expense analytics charts, recurring payment alerts, and visual goal-tracking dashboards.

EDUCATION

Bachelor's Degree in Computer Science — Graduated: 2024

Faculty of Computers and Information Sciences, Mansoura University

CERTIFICATIONS & PROFESSIONAL TRAINING

- **Frontend Engineering with React**
  Manara — 2025
- **Front End Web Development (HTML5, CSS3, JS, React)**
  CCIC — Faculty of Computers & Info, Mansoura University — 2023
- **Comprehensive English Language — Phase 2**
  COURSSAT.com (The UK) — 2024
- **Comprehensive English Language — Phase 1**
  COURSSAT.com (The UK) — 2024
